Professional Summary

I am a soon-to-be Software Engineering graduate with hands-on internship experience building and supporting software applications, front-end interfaces, full-stack solutions, APIs, and data-focused applications. Experience includes Vue development, JavaScript, Python, TypeScript, HTML, CSS, SQL, CI/CD pipelines, Jupyter Notebook applications, database technologies, AWS services, Jira, ServiceNow, Docker, and production-oriented IT support.

Education

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING

Western Governors University | October 2026

Organizations: Break Through Tech; Women in Computer Science; Women in Science and Engineering.

Certifications: ITIL Foundation in IT Service Management; CompTIA IT Fundamentals; Computer Technician with High Honors; Computer Associate with High Honors; Back-End Developer.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript, HTML, CSS, SQL

Web / Application Development: Angular, Vue, Power BI, Jupyter Notebook

APIs / DevOps: API Dependencies, REST-style API Integration, CI/CD Pipelines, Front-End Logging Tools: Jira, ServiceNow, New Relic, Docker

PROFESSIONAL EXPERIENCE

MANAGER | Pure Dental Spa | Chicago, IL | OCT 2025 – PRESENT

- Communicated with patients and staff to resolve concerns, coordinate daily operations, and provide consistent customer service.
- Collaborated with clinical and administrative teams to coordinate schedules, resolve issues, and support team productivity.
- Trained team members, delegated responsibilities, and maintained an organized and professional work environment.

IT SPECIALIST | Dentologie | Chicago, IL | DEC 2024 – OCT 2025

- Maintained and troubleshooted enterprise software applications and SQL-based databases, resolving over 50+ technical issues weekly to support reliable access to patient and billing information.
- Identified system-level application issues and communicated technical solutions clearly to non-technical staff to reduce downtime in a distributed clinical environment.
- Managed and verified data integrity across insurance and billing systems while leveraging Git for version control on internal documentation and script updates.

SOFTWARE ENGINEERING INTERN | Morningstar Inc | Chicago, IL | MAY 2022 – SEPT 2025

- Built front-end components using Vue and JavaScript that enabled Financial Analysts to propose pillar scores and ratings, supporting peer review for enterprise software users.
- Developed interactive full-stack applications using Python and Jupyter Notebook source code to make machine learning data more accessible for investor analysis.
- Designed a Vue application focused on investor bias, implementing complex Algorithms and Data Structures to calculate user results and dynamic data visualizations.

Projects

Resume Review | JavaScript, HTML, CSS, Mammoth.js

- Built a web application that reads .DOCX resumes and compares skills, education, coursework, and experience with a job description.
- Added resume matching, job requirement breakdowns, application tracking, and follow-up dates using JavaScript and browser storage.

Interactive World Map | Angular, TypeScript, World Bank API

- Built an interactive world map that lets users select countries and view information from the World Bank API.
- Used Angular and TypeScript to handle the map, API requests, and dynamic page updates.
