PROFESSIONAL SUMMARY

Software Engineer with 3+ years of technical experience in full-stack development and IT infrastructure, specializing in Java, Python, and scalable enterprise software. Proven track record of building data-driven applications for financial analysis and managing complex systems for healthcare operations. Expert in Data Structures and Algorithms with a strong foundation in Git, SQL, and cloud technologies, dedicated to designing and scaling modern machine learning platforms.

TECHNICAL SKILLS

Programming Languages & Core Computer Science: Python, Java, SQL (MySQL), JavaScript, TypeScript, C, C++, Data Structures, Algorithms

Web & Enterprise Frameworks: Vue, Angular, REST APIs, HTML, CSS, Mammoth.js

Cloud, DevOps & Infrastructure: AWS (S3, Lambda, API Gateway), Docker, Kubernetes (Knowledge), CI/CD, Git, DynamoDB, Network Architecture

Data Science & Tools: Jupyter Notebook, Power BI, New Relic, Jira, ServiceNow, Distributed Systems

PROFESSIONAL EXPERIENCE

MANAGER | Pure Dental Spa | Chicago, IL | OCT 2025 – PRESENT

- Communicated with patients and staff to resolve concerns, coordinate daily operations, and provide consistent customer service.
- Collaborated with clinical and administrative teams to coordinate schedules, resolve issues, and support team productivity.
- Trained team members, delegated responsibilities, and maintained an organized and professional work environment.

IT SPECIALIST | Dentologie | Chicago, IL | DEC 2024 – OCT 2025

- Maintained and troubleshooted enterprise software applications and SQL-based databases, resolving over 50+ technical issues weekly to support reliable access to patient and billing information.
- Identified system-level application issues and communicated technical solutions clearly to non-technical staff to reduce downtime in a distributed clinical environment.
- Managed and verified data integrity across insurance and billing systems while leveraging Git for version control on internal documentation and script updates.

SOFTWARE ENGINEERING INTERN | Morningstar Inc | Chicago, IL | MAY 2022 – SEPT 2025

- Built front-end components using Vue and JavaScript that enabled Financial Analysts to propose pillar scores and ratings, supporting peer review for enterprise software users.
- Developed interactive full-stack applications using Python and Jupyter Notebook source code to make machine learning data more accessible for investor analysis.
- Updated REST API dependencies and deployed application changes through a robust CI/CD pipeline involving AWS and Docker containers to scale service delivery.
- Designed a Vue application focused on investor bias, implementing complex Algorithms and Data Structures to calculate user results and dynamic data visualizations.

EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING | Western Governors University | October 2026

Relevant Coursework: Data Structures & Algorithms; Advanced Software Engineering; Advanced Java; Java Frameworks; Back-End Programming; JavaScript Programming; Front-End Web Development; Data Management; Network Architecture & Cloud Computing; Software Testing & Deployment; Version Control.

Organizations: Break Through Tech Chicago; Women in Computer Science; Women in Science and Engineering.

Certifications: ITIL Foundation in IT Service Management; CompTIA Project+; CompTIA IT Fundamentals.
